 Spinnaker 110 sq. feet
 Hull Weight 170 lbs.
 Mast Height 19'2"

Hull Colors:
 Kahuna Red/
 Storm Blue/
 Aquarius Blue/
 Key Lime

Designed by Frank Bethwaite
 Handcrafted in the USA

Two piece step tapered rig with diamond shrouds allows tuning adjustment

Spinnaker pole trolley system stores the long pole along the boom with one hand operation

One-design class sails eliminate the "sailmaker arms race"

Ports with storage bags are water tight for spare gear and food

170lb. hull and flat deck are ideal for car top transportation

Kick up rudder

Adjustable jib leads

High-aspect airfoil blades

Lightweight, planing hull form for control at top end speeds

Spinnaker bow launcher tube and belly cord makes setting and dousing the huge spinnaker a snap

Bow tab keeps the sheets from under the bow when the water is flying

Designed by high-performance guru Frank Bethwaite, the Laser 2 features an easily driven hull for high-speed planing performance. The two-piece rig and one-design sails provide a simple powerful engine.

With a large spinnaker and a long pole stowed on a boom trolley, the Laser 2 excels off the wind; and, when you reach the leeward mark and prepare to douse the chute, you'll appreciate the built in bow launcher that gobbles up the chute and stores it for you.

The Laser 2 class is a thriving, one-design organization that hosts events from the World Championship all the way down to your local and regional level. The ISAF, US Sailing, and the Canadian Yachting Association have all chosen the Laser 2 for numerous Youth Championships.

The Laser 2 is the ultimate high-performance youth trainer. It is a fantastic stepping stone to Olympic classes like the 470 and 49er. Like all Vanguard products the Laser 2 is delivered ready to race and win. Ready for some high-performance, double-handed action? Get on a Laser 2.
